Python/DevOps/FOSS enthusiast & hacker
Swiss Django Meetup organizer
Conference speaker

education

2003–2004	Mastère Spécialisé 3D computing and Virtual Reality	Institut Image, ENSAM
2000–2003	Master of Computer Science with honors Specializing in Software Development and Image Computing	Polytech Marseille
1998–2000	Classes Préparatoires aux Grandes Écoles Preparation for national competitive entrance exams to leading French “grandes écoles”, specializing in Physics and Engineering Science.	Lycée Frédéric Mistral, Avignon
1998	French Baccalauréat S. with honors Specializing in Mathematics	Lycée Jean Monnet, Vitrolles

experience

2012–2010	Hyperweek, Geneva CH In charge of the technical-related side of the startup, including back-end development and architecture, deployment and monitoring, infrastructure design and technical strategy/decision. <ul style="list-style-type: none">• Evolved from fork-based projects to a framework-based approach with reusable components/apps and pluggable customer project• Enhanced infrastructure design and monitoring to handle customer scaling/hosting issue• Built a python/puppet-based deployment tool to handle a SAAS-like strategy• Developed dozens of tailored Hyperweek-based projects	CTO
2010–2009	Salsadev, Geneva CH Lead developer of the following projects: <ul style="list-style-type: none">• Jetpack-based plugin built on top of the in-house semantic platform• Prototypes for presale• Internal cloud-computing platform• API Proxy application (ala Mashery)• Adobe Air semantic application	VP Product Development
2007–2009	Rue du Commerce, Aix-en-Provence FR As a member of the marketplace team, I worked as a Lead developer on the following fields: <ul style="list-style-type: none">• Payment processing• Order management• Billing accounting	Software Engineer

- 2006–2007 **Capgemini, Marseille FR** Software Engineer
 As a member of the Open Source departement I worked on:
 - Prototypes for presale
 - Extranet for a french regional institution
 - End user documentation and installation manual for developers
 Between two contracts I maintained critical B2B applications.
- 2005–2006 **Mobivillage, Marseille FR** Software Engineer
- Deployed database-driven applications - like downloading platforms (products catalog listing, online shipment and payment, geolocated services)
 - Developed event-driven websites and mass text-messaging tool for trademarks campaigns
 - Built a mobile-targeted game editor based on building blocks assembly (ala Virtools)
- 2004–2005 **Newtgames, Marseille FR** Software Engineer
 Maintained web-3d client and geolocation engine used by MogiMogi - a location-based collecting game. Game deployed in Japan and Spain.

recommendations

- Hyperweek **Raphaël Briner** Founder at HyperWeek
During 2.5 years, Sébastien was acting as a real co-founder, involved in crucial decisions, resolving complex issues for our roadmap, our services and our infrastructure. Thanks to his amazing work and involvement, HyperWeek succeeded to deliver on time, reduced support to maximum, improved its processes. Mastering accounting too.
- Hyperweek **Julien Mouille** Web Designer & Developer
Having worked closely with Sébastien for more than 2 years at HyperWeek, I can say he's an expert of Python and the Django web framework, of which he was an early adopter. He's also got excellent DevOps skills. In a short period of time he greatly consolidated the web application stack and built a robust infrastructure which is now running dozens of clients' projects (most of them extensively using Amazon Web Services). Sébastien is also a great team player and often raises interesting points which help make a better product. He definitely brings much more than technical expertise to a project. I would warmly recommend him to anyone looking for an experimented and talented software developer or architect.
- Rue du Commerce **Johann Evrard** Directeur E-Commerce et Digital
J'ai recruté Sébastien dans le cadre du développement de la Marketplace de RueDuCommerce. Je recherchais alors des Web Developpers capables de prendre à bras le corps des pans entiers du projet, et de travailler en totale autonomie dans un contexte Agile. Tout au long de notre collaboration, Sébastien a démontré son ouverture d'esprit, sa créativité, son professionnalisme, et sa rigueur. Sébastien sait associer son penchant naturel pour la pointe de l'art, au pragmatisme que nous impose parfois la réalité du business. Je recommande donc Sébastien sans réserve.

out there
